## Work Experience

**Freelance Web, App Developer**  
**Medicare**  
Flutter, React, Django, Nodejs, Redis | Feb 2022 – April 2022

- A virtual platform between doctor and patient. Featured with Appointment booking, medical details, and analytics built with Django as backend, React and Flutter for frontend, PostgreSQL as database and Redis as caching and message broker.
- Implementing this project helped me to understand deeper about communication between multiple servers, cloud services and deployment

**Freelance Web, App Developer**  
**HomieTouch**  
Django, Flutter, React | Aug 2021 – Dec 2021

- An aggregator platform that allows skilled and experienced professionals to connect with users looking for specific services which is built using Django, Flutter and React.
- Working on this project helped me to gain major knowledge about REST APIS, WebSocket and product development stages.

**Freelance Website Developer**  
**SaiSlokaOnline**  
Django, HTML, Bootstrap, CSS| May 2021 – June 2021

- Website for an academy that is in passionate towards the India's rich cultural heritage, slokas and many more.
- Built with Django, HTML, CSS and Bootstrap, this project helped me to gain my primary knowledge and understand how a website works in both development and production stages.
